SUMMARY

I am a backend developer intern who is eager to learn new technologies and advancements. I have a strong passion for staying up to date with the latest developments in the field. My goal is to leverage my backend develop skills and create innovative and practical applications in this fields of programming.

EDUCATION

08/2021 - 08/2025 (expected)	BACHELOR OF SCIENCE, COMPUTER ENGINEERING Amirkabir University of Technology
01/2018 - 08/2021	HIGH SCHOOL DEGREE, Shahid Dr Shahryari High School Affiliated with the National Organization for the Development of Exceptional Talents (NODET)

NOTABLE PROJECTS

Discord (Demo Version)

This is a demo version of a real Discord application where you can create an account and log into your account. You can have private chats with your friends and stay connected. Additionally, you can create servers, create channels and groups within the servers, and chat with a group of friends. It also includes features like blocking users and adding them to your friends list, and more.

Platforms: Terminal, Windows, Android.

Technologies used: Java, JavaFx. [[Link](#)]

SnakeGame

This project is a snake game created using the Python programming language. In this game, you control a snake and your objective is to eat food and accumulate a higher score. However, you must be cautious not to collide with yourself, as doing so will result in game over. The game consists of various levels that progressively increase in difficulty as you advance.[\[Link\]](#)

CERTIFICATES

- TASK-ORIENTED COURSE IN FUNDAMENTALS OF C JAVA PYTHON PROGRAMMING AND ALGORITHMIC THINKING, Quera [[link](#)]

SKILLS

- **Good at:** Java , Python , flutter
- **Familiar with:** Kotlin , C , Git , Linux, Data Structure, OS, Dart
